NEWS RELEASE

Alliance Engineering Expands Business Development Resources

HOUSTON, April 8, 2010 – Wood Group’s Alliance Engineering has hired Greg Vetter as manager of offshore business development within its offshore business unit.

In his new role Greg will be responsible for identifying opportunities and enhancing the growth of Alliance in existing and new offshore markets. Greg has over 10 years of sales, marketing and business development experience, with eight years servicing the offshore oil and gas majors and independents. He has a track record of success, and comes to Alliance from EDG where he served as business development consultant responsible for offshore business development. Greg holds a Bachelor of Business Administration degree in management from Baylor University, and is a member of SPE, PMI, API, GPA, and AMA.

“We’re excited to have Greg on board,” said Edmund Lunde, president of Alliance.

“Greg’s energy, experience and industry knowledge will help enhance our domestic and international business development capabilities”.

Notes to Editors

Alliance Engineering provides highly optimized concept-to-completion custom engineering and design solutions for the oil and gas industry, and past projects include some of the world’s most recognized project developments. With an emphasis on quality initiatives, cost-effective engineering, and a partnership approach to customer relationships, Alliance has provided cutting-edge and fit-for-purpose engineering services for customers worldwide. Alliance offers services and expertise for: offshore projects, including topsides facilities for fixed-platforms, FPSOs, semi-submersibles, tension leg platforms (TLP) and SPAR-type deepwater developments, and onshore projects, including upstream production and processing facilities, compressor stations, pipelines, and storage projects. Alliance has offices in Houston, TX and Denver, CO. www.alliance-engineering.com
